

# \$WILLSLAP MEME COIN

One night. One stage. One slap heard around the world.

## The Moment

On March 27, 2022, during the 94th Academy Awards, internet history was crystallized in 4K glory. That slap didn't just echo through the Dolby Theatre - it resonated across every social platform, spawning millions of memes and becoming permanently etched into our collective digital consciousness.

## Why \$WILLSLAP?

While others chase the next 24-hour pump, we're preserving the most viral moment in entertainment history. This isn't just another meme token - it's blockchain permanence for peak internet culture. You're not just buying a token; you're owning a piece of the meme that broke the internet.

## Tokenomics

Total Supply - 1.618 Billion (Golden Ratio)

- 67.38% (1,090,147,048) - LP Locked Forever

- 20.16% (326,231,063) - Community & Marketing

- 12.46% (201,621,889) - Development Team

## **Security**

\$WILLSLAP is designed with maximum security and true decentralization at its core. All administrative powers have been permanently revoked, and liquidity is locked forever, making it a truly community-owned token:

- Permanently locked liquidity pool
- Unruggable token contract
- Freeze Authority Revoked
- Mint Authority Revoked
- Update Authority Revoked
- Fair launch implementation

## A Community-Driven Journey

\$WILLSLAP grows like memes do - organically, virally, through the collective energy of its community. No corporate roadmaps, no artificial milestones. Just pure internet culture in motion.

### Why Community-Driven?

**Raw Authenticity** - Just like you can't force a meme to go viral, you can't force community. Magic happens when it's real.

**Rapid Evolution** - The crypto scene moves as fast as meme trends. Our community adapts instantly.

**Collective Power** - Thousands of meme lords > any single dev team

**Cultural DNA** - Our community made the original slap into internet history. Now they're making crypto history.

The future of \$WILLSLAP isn't written in smart contracts - it's being written in pixels and memes by our community every single day. This is how we keep the moment alive, not through corporate planning, but through collective creativity.

## Legal Disclaimer

Look, crypto is wild - especially meme tokens. \$WILLSLAP's value can and will swing dramatically. This isn't investment advice, and nobody's promising you'll make money. Make sure you're allowed to participate where you live, and always do your own research. When trading on exchanges or connecting wallets, those platforms have their own rules - know what you're getting into. We're building something fun and meaningful, but you need to handle the legal stuff on your end.

This Whitepaper is for information and entertainment only. It is not financial, investment, or legal advice. Please research thoroughly and consult professionals before making any decisions about cryptocurrency or WILLSLAP.
